## SUMMARY

Java Backend Developer with 2+ years of experience building secure REST APIs and microservices with Spring Boot, Spring Security, Hibernate and MySQL. Experienced in JWT authentication, SQL optimization and messaging with Kafka and RabbitMQ. Comfortable debugging production issues and working in cross-functional teams. Available to join immediately.

## SKILLS

**Languages:** Java (Core, Java 8), SQL, JavaScript

**Frameworks:** Spring Boot, Spring Security, Hibernate / JPA, JDBC, Servlets, JSP

**Backend:** REST API Development, Microservices Architecture

**Database:** MySQL, Query Optimization, Indexing

**Messaging & Tools:** Apache Kafka, RabbitMQ, Docker, Git, Postman, IntelliJ IDEA

**Testing:** JUnit 5, Mockito, API Testing, Debugging

## EXPERIENCE

**Java Developer** | Fourise Software Solutions Pvt. Ltd., Pune *Mar 2024 – July 2026*

- Developed RESTful APIs with Spring Boot for client-server communication, following Controller-Service-Repository architecture.
- Implemented robust error and exception handling to keep API interactions reliable and resilient.
- Built the persistence layer with Hibernate/JPA, including entity mappings and repository operations on MySQL.
- Integrated Apache Kafka for asynchronous, reliable message processing between application components.
- Designed RabbitMQ queues, exchanges and bindings to decouple modules, and implemented message acknowledgment, routing and filtering for reliable delivery.
- Read and wrote text, CSV, XML, JSON and Excel files using Java I/O streams and libraries.
- Wrote complex SQL queries and optimized schemas, tables and indexes for performance and data consistency.
- Investigated production issues by analysing logs, identifying root causes and delivering fixes with the team.
- Built responsive web UI components and collaborated on UI/UX integration.

## PROJECTS

**Complaint Management System** | Spring Boot, Spring Security, MySQL vnshri.github.io/cms-app

- Built 20+ secure REST APIs with role-based access control (RBAC), secure login, password reset and full CRUD operations.

**Payment Integration System** | Spring Boot, MySQL vnshri.github.io/paylink-app

- Developed REST APIs for transaction management with advanced filtering by date and amount.

## EDUCATION

**B.E., Electronics & Communication** | VSM's SRK Institute of Technology (VTU) | CGPA: 8.0 *2018 – 2022*

Ranked in the top 3% of the engineering class

## CERTIFICATIONS

Java Full Stack Development | Web Development Internship
